1. What all assessments/tests have you used of Central Test?

Managerial Skills Test, and Sales Profile Test

2. How did you like the quality of the tests?

Excellent feedback. As a C.E.O of my company, the Managerial Skills Test has helped me identify my managerial strengths and areas in which I need to improve. The sales profile test was such a wonderful thing in that it was able to validate what I already suspected I was in the area of sales – i.e. I have a high sales acumen and prefer training others.

3. Your personal opinion about our assessments and our organization?

Great assessment tools as well as business model of central test.
